# TORONTO PUBLIC LIBRARY

CATALOGUING DEPARTMENT

AN EXTENSION OF THE

## Dewey Decimal Classification

APPLIED TO

CANADA

When, in 1909, the Cataloguing department of the Toronto Public Library undertook the work of recataloguing the Reference Library of 85,000 volumes, it was found that for a Library which contained one of the largest collections of early Canadian works in existence, the treatment of Canada in the Dewey classification, edition 1891, was sadly inadequate, where it was not historically and geographically out of date. Following the procedure of Mr. Dewey, this department expanded the system, and after a trial sent it to Mr. Dewey with the statement of why and how it was done. When the new edition appeared a year later, and Canada remained as it had been in 1891, we printed our plan and sent proof sheets to those whom we thought might be interested. And now, having received their criticisms, we are adopting the expansion as outlined in this pamphlet.

George H. Locke, Chief Librarian.

Toronto, January, 1912.
